

Nature Walks

About a 20 mins walk from your lodge is a purpose built wildlife hide where you can sit, watch, and photograph an array of wildlife.

Or guided walks are available by the Estates Wildlife Officer (£10 / person). These can be arranged by contacting the reception. The Estate is proud to be the home to rare Sika deer, badgers, otters, stoats, buzzards, all sorts of birds and wildfowl but never can we guarantee you will see anything.

The best time to go out is early morning at sun rise and be patient. Sitting out there in nature's silence watching deer grazing or a buzzard feeding is one of life's true pleasures.
